

How do I turn on video mode with the event in the center?

First you have to connect the cameras to the device

After that, you should go to [device configuration menu](#), go to the tab **Cameras/Timelapse/Center event video (content 4)**

Event centered video (content 4) ☐

Camera 1

State Enabled	⇒	1/2 video time (5..15s HIGH: 5..60s LOW) 15	RTSP source LOW
------------------	---	--	--------------------

Camera 2

State Enabled	⇒	1/2 video time (5..15s HIGH: 5..60s LOW) 15	RTSP source LOW
------------------	---	--	--------------------

Camera 3

State Enabled	⇒	1/2 video time (5..15s HIGH: 5..60s LOW) 15	RTSP source LOW
------------------	---	--	--------------------

Camera 4

State Enabled	⇒	1/2 video time (5..15s HIGH: 5..60s LOW) 15	RTSP source LOW
------------------	---	--	--------------------

Here you can adjust the duration of the video (depends on its quality) and the quality of the stream.
