

# How do I view the live broadcast?

First, we need to go to [device bitrek video](https://device.bitrek.video)

There are several ways to view the live broadcast on [device.bitrek.video](https://device.bitrek.video)

1. under Streaming video player
2. via link token

- The first way: via streaming video player

In the main menu go to the section **video streaming player**, which will display all the cameras connected to the device and their live broadcast

- The second way: Through TOKEN links.

In the main menu in the **Secure Access Token** section press the **Streaming video** button and go to the corresponding section, where all the cameras connected to the device and their live broadcast will be displayed
