

How do I set up file deletion quotas in the repository?

You need to go into [device configuration menu](#), and go to the **System/System/Delete Files Policy** tab

System maintenance

Default storage
microSD card

Storage file system format
EXT4 (for Linux)

Delete files policy

Storage used
97%

Event files count
500000

Files disk sharing
20% event files | 80% recorder video files

System reboot

Day of week
Daily

Hour
02

Minute
01

Ignition sensor

Sensor state
Disabled

Timeout, s
0

Ignition sensor state

0 - sensor disabled; 1..65000s - timeout

Camera power state configuration
Disabled

Timeout, s
0

Ignition ON - cams ON, ignition OFF - cams off

OFF timeout

Here you'll be able to configure

- Maximum percentage of occupied space, after exceeding which the deletion of old files will start (**Insp.storage**)
- Maximum number of files after exceeding which the deletion of the old files will start (**Event Files**)
- Quota percentage of file type, above which Old Files Deletion will start (**Quota of files by type**)
