

System alerts

If you set alerts correctly you can be informed about the changes or problems with the mNVR section System alerts:

The screenshot shows the Bitrek mNVR system alerts configuration. At the top, there's a navigation bar with the Bitrek logo and the number 864004043514261, followed by links for INFO, SYSTEM, NETWORK, CAMERAS, SENSORS, and RECORDER. Below this is a left sidebar with links for SYSTEM, MNVR TEST, TRACKER, FIRMWARE, CONNECT, and ALERTS. The main content area is titled 'Alerts' and lists three types of alerts: Reboot, Storage, and Cameras problem. Each alert has three checkboxes for EMAIL, SMS, and IPS. All checkboxes for Reboot, Storage, and Cameras problem are currently unchecked (gray).

Parameter	Parameter Description
Reboot	Email: send Email to all specified in the Email section users will receive a reboot message SMS: send an SMS to all users specified in the GSM settings section will receive a reboot message IPS: send to the server via IPS reboot protocol
Storage	Email: send Email to all specified in the Email section users will receive an error message in the repository SMS: send an SMS to all users specified in the GSM settings section will receive an error message in the repository IPS: to send to the server through IPS the report on an error in storage
All cameras off	Email: send Email to all specified in the Email section users will receive a message to disable all cameras SMS: send an SMS to all users specified in the GSM settings section will receive a message about disabling all cameras IPS: send to the server via IPS protocol to disable all cameras

Parameter Description of System alerts:

Parameter	Parameter Description
Reboot	Email: send Email to all specified in the Email section users will receive a reboot message SMS: send an SMS to all users specified in the GSM settings section will receive a reboot message IPS: send to the server via IPS reboot protocol
Storage	Email: send Email to all specified in the Email section users will receive an error message in the repository SMS: send an SMS to all users specified in the GSM settings section will receive an error message in the repository IPS: to send to the server through IPS the report on an error in storage
All cameras off	Email: send Email to all specified in the Email section users will receive a message to disable all cameras SMS: send an SMS to all users specified in the GSM settings section will receive a message about disabling all cameras IPS: send to the server via IPS protocol to disable all cameras

To set the default settings, click the **Default** button. To save settings in NVR click **Save settings** button.
